

Online-Results - Workspace Migration and Transformation

As a partner, we played a critical role in the successful migration of our customer's data from Microsoft 365 to Google Workspace. Leveraging our expertise in cloud-based platforms and project management.

The challenge

Merging of at Office365 using company in to a Google Workspace company, updating and alligning procedures and data to suit a new way of working. Transforming the the companys core collaboration.

The solution

To provide a solution for our customer, we utilized the Google Cloud Platform to drive the data migration infrastructure. Leveraging Google Cloud's best practices for onboarding, user analytics, and delivery, we were able to seamlessly migrate our customer's data from Microsoft 365 to Google Workspace, enabling them to achieve increased collaboration, productivity, and efficiency.

The results

Online Results migrated from Microsoft 365 to Google Workspace, transforming their business operations. Improved collaboration and communication tools, such as Gmail and Google Drive, allowed for real-time sharing of information among team members. Integration with cloud-based apps enabled automation of tasks, freeing up employees for higher-value activities. This migration has made Online Results

“ Apps People played a critical role in ensuring the success of our migration from Office 365 to Google Workspace. Their expert knowledge and experience with the migration process allowed us to overcome any challenges that arose during the transition. They provided us with a clear roadmap, proactive communication, and exceptional support throughout the entire process. ”

Jeppe Kragmann, CTO, Standoutmedia
