

Wipro manages Google Cloud Services for Metro Cash Carry

Wipro is Primarily involved in Transformation & Managed Service with Agile delivery support. (Actual Project end is 31st-Dec-2028 . As it is not allowing to select Future date so we have selected as 15th-Mar-2023 as Project End Date).

The challenge

- Solution for business on the benefits of cloud and best practices for adoption.
- Simplify and streamline our IT landscape by partnering with the experienced vendor
- Complex and decentralized IT landscape running on multiple platforms.
- The transformation program for Data center services, Google Cloud, and Network services to supplier with RUN infra and app operations.

The solution

- Provisioning, operating, maintaining Google Cloud infrastructure configuration, automation, DR, backup and recovery.
- Scripting for automating repeatable tasks to reduce administrative toil. (Provisioning, monitoring, backup, DR-sync and image creation)
- Administration & DB Management for PostgreSQL Instances hosted on CloudSQL.
- Design, build and test GCVE Private cloud environment

The results

- New Operating model managed by Wipro team with an effective mix of Offshore & Onsite resources.
- Cost savings by onboarding a robust automation strategy to automate daily administrative tasks.
- Improved System Resiliency by using reliable availability testing & reporting dashboards.
- Highly skilled and productive workforce
- Operating expense reduction by Consolidation of App server platforms

“ Wipro is managing Google Cloud Services for METRO digital. Wipro is performing the migration of our VMWare on prem solution to GCVE. Wipro runs migration of corporate and also local application to GCP. Wipro is supporting Metro Digital to adapt, best Practices & optimally run the cloud environment which is helping us to focus on our core businesses. ”

Ronald Moeser, Cloud & Enterprise Products - Domain Owner, Metro Digital
