

Infinity Infoway-Migration to GCP

Cloud4C migrated existing web workloads to Google Cloud Platform (GCP) for high elasticity and cost-effectiveness. . Our GCP migration delivery resulted in 3x TCO reduction, 99.95% uptime, and increased ROI.

The challenge

1.Need for a highly elastic cloud platform. The customer had to address the needs of a highly flexible number of test takers around the world. 2.Cost-effectiveness was key 3.High availability was essential 4.Migration of critical workloads within stringent timelines.With several tests on the anvil, customer had just four days to revamp their IT infrastructure and migrate to a new cloud platform

The solution

1.Pay per use model for cost effectiveness.3x TCO reduction, 99.95% uptime 2.Always-on availability 3.Accelerating Digital Journey with Intuitive GCP Infrastructure 4.Swift and Frictionless Migration As Per Single SLA. Cloud4C experts completed the migration in a swift manner, in a record time of four days. The team ensured a zero-friction deployment as per the migration factory framework.

The results

A.3x reduction in operational cost B.High uptime ensured fewer interruptions and consequently, increased brand reputation and end user delight. C.Swift and Frictionless Migration As Per Single SLA

“ Cloud4C delivered innovative cloud solutions that optimized our operational costs and processing time. Their proficiency and creativity in the cloud domain within lean timelines is impressive. Our partnership with them has transformed the manner in which we perceive digital transformation and cloud competency ”
