

# Tailored Google Cloud Landing Zone for public sector banking

T-Systems validated compliance with state laws and BAFIN regulations, providing a seamless integration of Google Cloud services by aligning the project with the EVB-IT Cloud contract (standardized framework for IT procurement in German Public Sector)

## The challenge

As one of the largest promotional banks in Europe, stringent regulatory, including BAFIN compliance and state-specific laws are required. Data security and regulatory adherence need to be ensured. The project also requires aligning with the EVB-IT Cloud contractual framework (standardized framework for IT procurement in the German public sector).

## The solution

T-Systems secured the infrastructure provisioning to optimize cost in consumption and leveraged the customer's knowledge in Google Cloud and IaC. To comply with the EVB-IT Cloud contractual framework, L-Bank was enabled to process data for multiple German states. Tailored to L-Bank's needs, the Landing Zone is highly individualized, combining best practices with specific regulatory requirements.

## The result

The scalable and well-suited solution enhances security settings and allows best practices for security and compliance, paving the way for ongoing digital transformation in a highly regulated environment. The implemented Cloud infrastructure accelerates project timelines, and enables improved collaboration among teams, as multiple users can access and contribute to projects simultaneously.

“ We really enjoy working with T-Systems and would also recommend T-Systems expert to another client. T-Systems versatile approach makes it suitable to onboard different types of projects and business needs. We are about to plan ongoing professional services engagement with T-Systems regarding further projects. ”

Alex Krist, CLEO Project Lead, L-Bank

## About L-Bank - state bank of Baden-Wuerttemberg

L-Bank, the state development bank of Baden-Württemberg, Germany, headquartered in Karlsruhe, focuses on business development, housing support, and family assistance programs. Fully owned by the state of Baden-Württemberg, it serves as the region's primary development institution, supporting local businesses, families, and infrastructure projects.

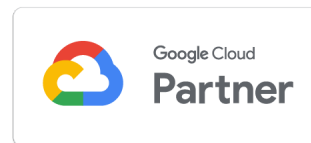

Vertical/horizontal solution: Financial Services

Primary project location: Germany

## About T-Systems International GmbH

With individual multi- and hybrid-cloud solutions, we offer opportunities for more growth and efficiency in the development of new business models.
