

# Collegis Education Success Story

F33 provides a core solution that Independent Software Vendors are able to use with onboarded products to enable Marketplace transactions.

## The challenge

Collegis Education, a Google Partner, wanted to publish their product on Google Cloud Marketplace. Due to the complexity of the project and the requirements related to integration and publication, the Partner decided to leverage Fourteen33's (F33) services to help them carry out the publication.

## The solution

F33 provides a core solution that Independent Software Vendors are able to use with onboarded products to enable Marketplace transactions.

## The result

Collegis Education's products are transactable through Google Cloud Marketplace and they can utilize the Private Offers, especially to enable co-sell, and they know how to edit and publish modifications to the listing. Collegis can also integrate deeper with the core solution and SaaS platform to automate provisioning and booking processes.

“ Collegis' Senior Vice President, Technology and Partnerships Todd Pombert said “F33's “pragmatic” approach and expertise helped guide Collegis' expectations to ensure we were able to collaborate effectively and complete the project on a tight schedule.” ”

Todd Pombert, Senior Vice President, Technology and Partnerships , Collegis Education

## About collegis
