

Transforming Collaboration and Efficiency at The Workplace Depot

CTS scoped, managed and implemented a full migration to Google Workspace. They provided expert advice and a migration plan that was tailor-made for the organisation, making the shift seamless and efficient with minimal disruption to daily operations.

The challenge

The company has seen a dramatic shift towards remote work and the use of diverse, non-desktop PC-based systems. This evolution presented a unique challenge, requiring a more flexible and integrated cloud system to keep up with the changing landscape. The goal was to find a solution that allowed for better sharing, interoperability, and supported the remote workforce.

The solution

CTS expertly guided the customer through migrating to Google Workspace, tailored to the customer's specific needs. The CTS team was exceptional in their support, always ready to assist and ensure a smooth transition. They provided expert advice and a migration plan that was tailor-made for our organisation, making the shift seamless and efficient with minimal disruption to the daily operations.

The result

The impact was immediate and constructive - productivity and efficiency soared. The digital transformation led to a revolutionised work environment, where remote work capabilities were no longer just an option but a powerful component of daily operations. The transition streamlined processes and fostered a new culture of innovation and efficiency that resonated throughout the entire organisation.

“Our experience with CTS has been nothing short of transformational. The shift to Google Workspace, guided by their expert team, has revolutionised the way we work, fostering a culture of collaboration and efficiency”

Steve Needham, Digital Content Manager at www.theworkplacedepot.co.uk
