

Bigger Games - Google Workspace Platform

Oredata played a critical role in the transition period from Basic Plan to Enterprise Standard Plan. Oredata supported Bigger Games during the transition with the necessary actions.

The challenge

As Bigger Games continued to expand its operations, they encountered limitations with their previous Basic plan. Collaborative efforts among their teams were hindered by feature restrictions, and they faced challenges in managing their growing workforce efficiently. The need for a more robust solution to support their evolving needs became evident.

The solution

This solution offered a powerful suite of tools designed to enhance productivity, promote seamless collaboration, and enable effective communication across their organization. With robust features such as enterprise-grade email hosting, advanced security controls, and integrated video conferencing, Google Workspace proved to be the ideal fit for their dynamic business needs.

The result

Bigger Games found the perfect solution to overcome their challenges and accelerate their business growth. The platform's seamless integration of essential tools and advanced security features allowed them to focus on what matters most - delivering exceptional products and services to their customers.

Moving to Google Workspace Enterprise Standard was a game-changer for our organization. The advanced features and seamless collaboration tools have revolutionized the way our teams work together. We now have the agility to respond quickly to market demands, and the enhanced security gives us peace of mind.
