

## AZB Joint Stock Company

AZB needs a partner to provide effective online working solutions during the Covid-19 pandemic, with the hope that its employees can comfortably collaborate, work and connect even when not at the office.

### The challenge

Covid-19 pandemic was still quite serious in Vietnam, the social distancing decree has forced employees to work remotely, degraded the communication between the team and partners, and caused many attached consequences.

### The solution

Mr.Phuc - an AZB's IT staff - came to GCS for advice on solutions to these challenges. MS.Nhung, a Sale Executive of GCS who has been working directly with Mr.Phuc since the early days, has come up with the strengths of Google Workspace that can be a suitable suite for AZB.

### The results

In addition to providing productivity solutions, Google Workspace helps AZB secure data by managing input and output data, avoiding the risk of information leakage and effectively controlling employees. Together with the support of Google and GCS, AZB's staff are always free to create workflows in order to achieve high efficiency.

“GCS staff are so enthusiastic about advising AZB on Google Workspace, helping us choose the suitable suite of Google Workspace Business Starter - which can meet the needs and size of the business. The apps in Google Workspace are linked and integrated with each other, helping our employees concentrate on working rather than taking the time to move back and forth between tabs.”

Phuc Nguyen - IT Support, AZB JSC

### About AZB Joint Stock Company

AZB is the leading construction contractor in Vietnam. AZB started with the initial human resources of less than 10 members. Through difficult years, in 2020, AZB is honored to be honored in the ranking of Top 500 largest private enterprises in Vietnam, an award awarded by Vietnam Report JSC (Vietnam Report JSC).
