

## Çiçeksepeti Migration to GCP Ensures Reliability and Scalability

Ciceksepeti.com modernized its infrastructure on Google Cloud Platform with Oredata to improve performance and reliability. This partnership allows Ciceksepeti.com to take advantage of the latest cloud-native technologies and best practices.

### The challenge

As time went on, the architecture of Ciceksepeti.com became increasingly complex and difficult to manage. This complexity posed a significant challenge for the teams, as they struggled to keep up with the constantly evolving needs of the system. Despite our best efforts, the existing architecture eventually reached a point where it was no longer sustainable.

### The solution

Ciceksepeti.com and Oredata have come together to re-engineer their infrastructure. The result of this collaboration is a modernized system that has been migrated to the Google Cloud Platform. This new infrastructure will provide improved reliability and scalability, allowing the companies to better serve their customers and grow their businesses. The migration to the cloud will also provide cost

### The results

Ciceksepeti.com's modernization project has reduced costs and improved efficiency. The company migrated to a modern, cloud-based infrastructure and streamlined processes, leading to cost savings and increased productivity. The new infrastructure allows for better collaboration and scalability, setting the company up for continued success.

“Ciceksepeti.com's modernization project was a game-changer for our company. We've seen reduced costs and improved efficiency, and our employees are able to be more productive thanks to the new infrastructure. The move to the cloud has also allowed us to scale more easily. We're extremely happy with the results.”

Boğaç Öznalçın, CTO, Ciceksepeti.com
