

# Grupo Pavisá - SAP RISE Migration, Modernization and Manage

Kyndryl's mission is to transform Grupo Pavisá's IT systems by migrating to RISE with SAP on the Google Cloud Platform, helping to improve its sales, distribution, and finance systems. Also help digitize and modernize its manufacturing environment.

## The challenge

In recent years, Grupo Pavisá grew aggressively, creating a redundant operational structure and an IT environment that worked in silos. They needed to be more competitive in a growing market and their current SAP B1 product did not cover all their requirements, also wanting to optimize and modernize their business processes. Simplifying the management of its IT systems was also key.

## The solution

Engagement with C-Level and board members was key to understand the challenges with the manufacturing processes. Design thinking workshops were conducted to plan the greenfield implementation services for SAP S/4HANA on RISE, Data and Analytics on GCP with SAP Datasphere and SAP PPDS (Production Planning Detailed Scheduling). Production and QA environments are also being managed by Kyndryl.

## The result

By moving to the cloud, Grupo Pavisá simplified the management of its IT systems, allowing it to focus on delivering high-quality services for its customers. With SAP RISE, Grupo Pavisá modernizes its business model by accessing real-time data allowing them to reduce delivery times and improve production as well as creating forecasting models to better predict the market needs of its customers.

“ Grupo Pavisá's strategy is based on a long-term vision of the future supported by innovation, technology and sustainability. With Kyndryl, we are evolving from a traditional, infrastructure-centric operating model to a faster, more agile model with better, smarter solutions. With this, we hope to enhance execution, speed, functionality, and real-time analytics and innovate with Kyndryl and SAP. ”

Luis Gabriel Martínez, Corporate Director of Grupo Pavisá

## About Grupo Pavisá

Grupo Pavisá is a leading global manufacturer of glass and crystal products. Founded more than 60 years ago, Grupo Pavisá is a family business with manufacturing plants and distributors in Mexico, the United States, France and Italy. Known for its flexibility and adaptive production methods, Grupo Pavisá breaks traditional manufacturing paradigms.

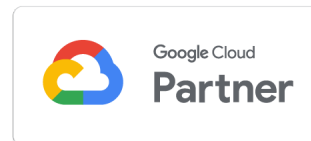

Vertical/horizontal solution: Manufacturing & Industrial

Primary project location: Mexico

## About Kyndryl, Inc

We design, build, manage and modernize the mission-critical technology systems that the world depends on every day.
