TA CR: Upgrade to G Suite Business

TA CR teamed up with AppSatori a Czech-based Google Cloud Partner. "AppSatori had comparable prices with the competition however their excitement for cloud technologies and never ending patience were their main advantages," says Kubicek, Head of IT.

The challenge

Back in 2019 TA CR was standing in front of an important infrastructure decision. Since the agency had grown they used the whole potential of G Suite Basic and therefore decided to upgrade to G Suite Business. Eventhough TA CR is a state agency they are trying to set an example for others in the usage of Cloud technologies. It was crucial to make sure everything fits within legislation.

The solution

AppSatori helped TA CR with easy and quick upgrade to G Suite Business. Nowadays the agency has 320 G Suite Business licenses and the number is growing every year. Throughout our collaboration we trained more than 100 employees. AppSatori also prepared custom app for the board of directors. We also recommended usage of Hangouts Meet Hardware for remote cooperation.

The results

„One of the main advantages of G Suite Business licenses was shared drives. Due to legislation we have to save our data in EU region," says Vladimir Kubicek the Head of IT in TA CR. Other advantages for IT teams are world-class security and reliability as well as savings on infrastructure costs because there is no need for extra administration. Everything runs smoothly and without flaws.

> Ease of use, focus on clean design and intuitiveness those are the main advantages that G Suite offers its users. TA CR's collaboration with AppSatori and Google was such a good example that it inspired other public authorities such as Ministry of the Agriculture or Ministry of the Environment to use Google's tools. With Google their work has become much more efficient and easy.
