

GCP Onboarding - California Design Den

Pluto7 helped the customer to onboard on Google Cloud Platform which will further help the customer in making faster decisions and enhance customer satisfaction.

The challenge

The company's data is siloed across geographics in various systems due to which decision-making was a time-taking process. The main objective of this project was to create a solution that would lead CDD to compete with larger retailers and make quicker decisions. Another objective is to maintain enough inventory to meet customer demand in a timely, efficient way.

The solution

The customer is onboarded on Google Cloud Platform which will further help the customer in making faster decisions and enhance customer satisfaction. Below are the steps for Onboarding Setup Cloud Identity account - Cloud Identity, Workspace, Third-party domain tools Setup initial users and groups - Users and Groups provisioning, Third-party identification Setup Billing - Cloud Billing IAM Admin

The results

The customer is onboarded on Google Cloud Platform which will further help the customer in making faster decisions and enhance customer satisfaction.

About California Design Den

NMK Textile Mills has manufactured bed linens for major retailers in the USA and Canada. In addition to manufacturing bed linens wholesale for retail customers, they reworked its complete supply chain to manufacture products for California Design Den, which became an e-commerce retailer now selling its products directly to consumers online.

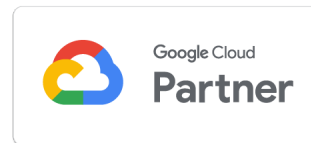

Industry: Retail & Wholesale

Primary project location: United States
