

## Viet Culture Media Corporation (VCMedia Corp)

HVN contacts with VCMedia Corp staff to analyze existing collaboration workflow. Our experts build up a plan to conduct Google Workspace migration process for the company in the shortest timespan based on their specific demands and number of users.

### The challenge

Storage space is vital since VCMedia Corp demands for storing electronic data expand as they produce more information in electronic form. Their internal IT systems didn't keep up with the company's quality requirements. VCMedia decided to provide its employees with tools for effective teamwork and communication so that they could concentrate on what they do best: developing cutting-edge software.

### The solution

Recognizing cloud storage solution would create a productivity boost in the company, VCMedia launched a cooperation with HVN for the Google Workspace deployment, data migration and training. Google Meet provides video conferencing tools. VCMedia Corp easily leverages the convenience of Google Workspace project management tools, that can be used to organize and track tasks, deadlines, and progress.

### The results

Since switching to cloud-based data system that can be accessed from anywhere, there has been a collaborative space where VCMedia Corp employees can easily share and edit documents in real-time, allowing for greater efficiency and productivity. With Google Workspace apps, teams can stay on top of their work and ensure that everything is running smoothly when they need to collaborate with partners.

“ Google Workspace offers a wide range of essential services that can greatly benefit the work that we do. With our partnership with HVN, we are able to liberate individuals from outdated working practices and enable businesses to flourish. Better business outcomes come from more effective collaboration, and Google Workspace supports the expansion of our clients network. ”

Mr. Hoang Long - Director at VCMedia Corp
