

Work Transformation- Catalyst Bio-Technologies

Sonata enabled Catalysts Group to understand security limitations with their current mailing service provider. Introduced them to Mail archiving, Admin level Mail Policies, and DKIM/DMARC level security of Google Workspace.

The challenge

Catalysts was looking for a secure, collaborative mailing system as their current service provider lacked functionalities. This compromised productivity and hampered business continuity. The existing solution also lacked security measures like Encryption, Phishing/Spoofing Protection, etc. Managing the flow of confidential data was also a challenge.

The solution

Sonata set up mailing tools like Archiving, Mail Policies, and DKIM/DMARC to check Spoofing/Phishing and enabled Enterprise-wide Mail encryption and Mobile Device Management to increase security. Comprehensive training on Google applications like Gmail, Meet, Drive, and collaborative tools like Docs, Sheets, Slides, etc. improved their security, productivity and business continuity.

The results

Sonata was able to migrate Catalysts' E-mail data with zero downtime in just a week. Organization-wide policy setup and Email archiving enabled compliance to audit standards. With Google Meet, stakeholders connected and collaborated seamlessly improving productivity over expectation. Enterprise-class mail encryption, Advanced Phishing, and Malware Protection helped users stay safe while working.

“Sonata's expertise in setting up email security policies helped us achieve compliance with auditing standards. Training on Google apps helped the organization's stakeholders to collaborate seamlessly during the unprecedented COVID induced lockdown.”

Atul Kumar, Network Engineer, Catalyst Bio-Technologies

About CATALYSTS BIO-TECHNOLOGIES PRIVATE LIMITED

The Catalysts Group is among the top 5 Indian biotechnology companies, active in the industrial enzymes business segment. Catalysts is pushing the boundaries of Industrial Enzyme formulations by creating superior and innovative products. Catalysts' process-based enzyme formulation expertise is the key competitive advantage for their customers.

Industry: Healthcare & Life Sciences

Primary project location: India

About Sonata Information Technology Limited

Sonata is a Global Platformation Company, specializing in the best of Cloud, Mobility, Analytics, Collaboration, Communication, and Security.
