Nalanda Academy of Science and Technical Education

Cloud4C helped Nalanda Academy of Science and Technical Education streamline their transformation on Google Cloud. We delivered fully managed services with real-time performance visibility, and extended support for smooth, secure operations

The challenge

1. Opaque Billing 2. Lack of Ownership 3. Lack of Proactive Technical Support

The solution

Post discovery workshops with Nalanda, Cloud4C committed to fully owned, platform-driven GCP managed services for the best outcomes. Our approach included the following approach 1. Advanced Managed Services 2. Real-time Monitoring and Cost Efficiency 3. Extended Support Attached Case study.

The results

1. Significant Cost Reduction. 2. Highest uptime till application level. 3. Real-time Metrics for enhanced performance and security 4. Improved traffic and end experience. 5. Smoother operations with extended support

> Managed services on GCP Cost effective, transparent, with full ownership of outcomes
