

Hanoi Pedagogical University 2 - Apply Google technology to adapt

Infolinks has accompanied HPU2 to advise and deploy solutions to support online learning and teaching for more than 10,000 students during the pandemic. Train and guide instructors to use Google's online teaching tools proficiently.

The challenge

When the COVID-19 pandemic occurred, all organizations around the world needed to change the way they operate and that became even more urgent for the education sector. HPU2 faces a big challenge to ensure that teaching and learning take place smoothly, without disrupting the learning progress of students as well as the teaching objects of educators.

The solution

HPU2 has thoroughly applied Google Workspace and its tools, especially educational features such as Google Meet, Google Classroom, Google Slide, Google Form... to deploy online classes throughout 2 pandemic year as well as continuing after the pandemic is over.

The results

Thousands of online classes have been conducted with over 10,000 students participating, helping to maintain a continuous and uninterrupted learning path while ensuring the quality of training. Teachers and students have more tools to make teaching and learning more convenient and effective.

“ Google Workspace has become an indispensable tool in learning and teaching of HPU2 ”

Tran Thanh Trung, Technical Manager, Hanoi Pedagogical University 2
