

## Ebebek - Cloud Migration to Achieve Scalability

Ebebek partnered with Oredata to build their cloud landing zone to leverage cloud benefits like reliability, scalability and leverage global network and computing power whenever necessary in a cost effective manner.

### The challenge

Ebebek had challenges around their on-premise big data scalability for some of the use cases, in order to achieve highly available, cost effective cloud data lake and have a secure cloud landing zone for future automated infrastructure requirements they selected Google Cloud and Oredata as the implementation partner.

### The solution

Ebebek and Oredata have come together to re-engineer their infrastructure as a secure automated landing for all their future GCP requirements. The result of this collaboration is a modernized system that has secure roles, identities, resources of folders, project, relevant IAM capabilities and organizational policies implemented on Google Cloud Platform for Ebebek to stay safe.

### The result

Ebebek landing zone project has provided a scalable and secure solution. The company migrated to a modern, cloud-based infrastructure and streamlined processes, leading to increased productivity. The new solution allows for better scalability, making the company ready for peak volumes in the future.

“ We would like to thank you for completing our Landing Zone implementation via Terraform. At this stage of the project, we see the concrete benefits of using IaC, as you recommended. ”

Mustafa Deniz, Data Management Manager

### About EBEBEK MAGAZACILIK ANONIM SIRKETI

ebebek.com is Turkey's first online store for baby products shopping. ebebek.com has been serving parents and prospective parents since 2001. Following the success of its website, e-bebek transitioned to physical retailing by applying the 'click to brick' business model, which is rare in the world.

Vertical/horizontal solution: Retail & Wholesale
