

Rohlik.cz - Upgrade to Google Workspace Business Plus

AppSatori, a Czech-based Google Cloud Partner, joined their powers with Rohlik.cz to upgrade their infrastructure to Google Workspace. AppSatori's main role in this project was making sure the upgrade is as smooth and as quick as possible.

The challenge

Rohlik.cz is a Czech-based company that operates in the food industry. Their business is growing day by day not only in the Czech Republic, but also in Hungary, Germany and in Austria. The infrastructure they originally had was no longer sufficient, so AppSatori suggested upgrade to Google Workspace Business Plus. Rohlik.cz needed better security for their data and also bigger Cloud storage.

The solution

Due to the large number of licences that Rohlik.cz has, Business Plus with its pros seemed like the perfect solution. Increased storage capacity, shared drives with files that belong to a team not only to individuals and simple manageability - those are the main benefits of upgrading to Business Plus. Unlimited storage and world class security were the most important features for Rohlik.

The results

The satisfaction of our customers with the products we offer them is crucial for both AppSatori and Google. The number of licences for Rohlik is growing monthly while they are saving money on infrastructure costs due to Business Plus. Teams can now collaborate on projects with nothing holding them back. With unlimited storage and tools for remote work, business growth is now easier than ever.

“Upgrade to Google Workspace Business Plus allowed us easier manageability of Google Workspace users in our domain especially when it comes to data security. Easy maintenance of our infrastructure helped us with the quick expansion into different countries and markets,” says Ondrej Klamt, the CTO in Rohlik.cz.
